

The True Measure of Excellence.™

GSC

GREENVILLE SCALE CO., INC.

**GREENVILLE SCALE COMPANY
HAS PROVIDED THE CAROLINAS AND GEORGIA
WITH DEDICATED SALES, SERVICE AND SUPPORT FOR WEIGHING
EQUIPMENT AND SYSTEMS FOR MORE THAN 80 YEARS.**

Greenville Scale offers expertise with certified scale calibration, preventive maintenance programs, scale rentals, custom software and programming, and 24/7 emergency service and repair to keep your business moving.

Greenville Scale delivers innovative service solutions that maximize continuous operation and minimize downtime, designed around the requirements of your business in today's global economy. Speed and customer satisfaction are the pillars of our service department. To achieve this, our service department is available around the clock and whether on-site or off, you can expect the most comprehensive, friendly service. Scale equipment rentals are available in lieu of extended service times, so you can be sure GSC will keep your business moving when you need it most.

**QUALITY AND
ACCURACY
YOU CAN
COUNT ON.**

Sales and Installation

Greenville Scale is a valuable resource you can turn to when assessing current operations or planning for growth. We offer extensive application experience and can demonstrate how the right equipment and a correctly designed system will increase efficiency, reduce expenses and generate additional revenue for your business.

Scale Rentals

Scale rental is the cost effective way to get the weighing capabilities you need for temporary installations, seasonal construction and manufacturing for taking periodic inventory. Renting scales offers the added assurance of properly calibrated, well-maintained equipment. We have a large inventory of rental scales on-site, ready to deliver.

A SMALL ERROR IN YOUR SCALE'S ACCURACY CAN RESULT IN A BIG LOSS OF PROFIT TO YOUR COMPANY'S BOTTOM LINE.

Accreditations

Greenville Scale Co., Inc. is accredited (certificate #1524.01) in accordance with the recognized International Standard ISO/IEC 17025:2005 General Requirements for the Competence of Testing and Calibration Laboratories by the American Association for Laboratory Accreditation (A2LA). This laboratory also meets the requirements of ANSI/NCSL Z540-1-1994 and any additional program requirements in the field of calibration. This accreditation demonstrates technical competence for a defined scope and the operation of a laboratory quality management system (refer to joint ISO-ILAC-IAF Communiqué dated 8 January 2009).

Certified Scale Calibration

A traceable certificate of calibration from an accredited lab such as Greenville Scale is important in providing documentation of your scales performance. The certificate provides your business with the documentation required for audits; proving your scales were calibrated with certified weights traceable to NIST which is required by Weights & Measure and other accreditation agencies.

- ISO/IEC 17025 Accredited by A2LA
- Testing follows HB 44 guidelines
- Excellent for auditing purposes
- Electronic documentation available

SERVICE, REPAIR AND MAINTENANCE WHEN YOU NEED IT MOST.

Preventive Maintenance Programs

Failure or inaccuracy of your weighing equipment can prove to be a costly burden, especially if that equipment is an integral part of your company's production process. These costs can materialize as production downtime or inaccurate billing and they can amount to the full replacement of a scale.

Greenville Scale would like to help you avoid these unplanned costs through a preventive maintenance program tailored to meet your needs. Preventive maintenance is critical to your equipment as oil changes are to your car. Regular maintenance ensures the accuracy of your weighing equipment, helps prevent future failures and extends the usable life of the scale. Along with preventative maintenance, our comprehensive service plans also can include:

- **Pre-Calibration Performance Tests**
- **Cleaning**
- **Calibrations (Standard, HB44, ISO/IEC 17025 & ANSI Z-540-1 Accredited)**
- **Consumable Replacements**
- **Discounted Labor Rates**
- **24 Hour Emergency Service**

24/7 Scale Service and Repair

We provide on-site comprehensive inspection, testing and calibration on all makes and models of weighing equipment – from precision balances to heavy-duty industrial scales. We also offer preventative maintenance programs and detailed reports for ISO Audits.

- **80 years experience servicing all brands of industrial scales and gauges**
- **Highly qualified service technicians**
- **24/7 emergency service response**
- **Preventive maintenance agreements**
- **Extensive parts inventory**
- **ISO/IEC 17025 Accredited**
